## Gippsland PCPs Regional Plan 2018 – 2020

### Developed by

Central West Gippsland PCP  
East Gippsland PCP  
South Coast PCP  
Wellington PCP

Last updated 15.11.2018

## Who are the Gippsland Primary Care Partnerships?

The 'Gippsland Primary Care Partnerships' was established to ensure greater collaboration and coordination between the 4 Primary Care Partnerships (PCPs) across the Gippsland Region.

The Gippsland Primary Care Partnerships aim to:

- Enhance strategic growth
- Ensure more efficient use of limited resources
- Ensure alignment of PCP activity in line with identified Gippsland health priorities
- Advocate for the specific needs of the Gippsland region on a local and State-wide platform
- Strengthen collaborative partnerships across the Gippsland region

The Gippsland Primary Care Partnerships (Gippsland PCPs) is an established network of 56 local health and human service organisations across Gippsland.

## Strategic Pillars of this Plan

Development of this Plan was facilitated through consultations with existing member agencies and an environmental scan and data analysis.

DHHS has advised of 3 strategic pillars for PCPs work to focus on over 2018-2020. These strategic pillars are:

- Prevention
- System Integration
- Family Violence

The plan has also been established giving consideration to our local Municipal Public Health and Wellbeing Plans and the recommendations from the Victorian Royal Commission into Family Violence.

## Principles that underpin this Plan

The Gippsland PCPs will implement this Plan through the use of systems thinking, co-design and collective impact approaches to ensure that the complexity of the issues we are addressing are responded to holistically and collaboratively in partnership with our members and the community.

Strategic Pillar 1: Prevention			
Strategy	Actions	Outcome	Indicators
1.1 Support Gippsland-wide sugary drinks strategy.	<ul style="list-style-type: none"> <li>Develop LGA level and a regional level sugary drinks system map to understand the drivers to sugary drink consumption.</li> <li>Develop and implement LGA level and a regional level sugary drinks action plan to address drivers at a systems level.</li> </ul>	<ul style="list-style-type: none"> <li>Gippsland community experience increased water consumption and reduced sugary drink consumption.</li> </ul>	<ul style="list-style-type: none"> <li>Increased water consumption (VPHS indicator).</li> <li>Reduced sugar sweetened beverage consumption (VPHS indicator).</li> </ul>
1.2 Support greater integrated health promotion/prevention planning with key agencies including local government, community and women's health.	<ul style="list-style-type: none"> <li>Support the development of the Municipal Public Health and Wellbeing Plans (MPHWPs) in each LGA.</li> <li>Develop the PCP IHP plans in line with the priorities identified in the MPHWP or integrate plans where possible.</li> </ul>	<ul style="list-style-type: none"> <li>Catchment wide plans demonstrate collaboration on consolidated and agreed priorities.</li> <li>Catchment plans demonstrate a collective impact approach to prevention.</li> </ul>	<ul style="list-style-type: none"> <li>Increased preventative protective factors and reduction in risk factors relating to identified Victorian health promotion priority areas.</li> </ul>
Strategic Pillar 2: System Integration			
Strategy	Actions	Outcome	Indicators
2.1 Improve organisational health literacy practices across Gippsland.	<ul style="list-style-type: none"> <li>Work with members to implement the <i>Gippsland Guide to Becoming a Health Literate organisation</i>.</li> <li>Implement and evaluate online training modules for health literacy.</li> <li>Conduct a formal academic evaluation of health literacy improvements across Gippsland.</li> </ul>	<ul style="list-style-type: none"> <li>Consumers with low health literacy have an environment in which they can more easily access, navigate and utilise services to make informed decisions about their health.</li> </ul>	<ul style="list-style-type: none"> <li>Number of organisations implementing a health literacy action plan.</li> <li>Number of health literacy capacity building activities and number of attendees.</li> <li>Online training module evaluation.</li> </ul>

			<ul style="list-style-type: none"> <li>External evaluation results of the Gippsland health literacy project in partnership with Monash University.</li> </ul>
<b>Strategic Pillar 3: Family Violence</b>			
<b>Strategy</b>	<b>Actions</b>	<b>Outcome</b>	<b>Indicators</b>
<p><b>3.1</b> Work with relevant PCP member agencies across Gippsland to implement the Healthcare that Counts (HCTC) framework to improve care for vulnerable children.</p>	<ul style="list-style-type: none"> <li>Establish Gippsland HCTC steering committee.</li> <li>Engage 6 pilot sites.</li> <li>Conduct Gippsland HCTC forum.</li> <li>Develop supporting HCTC framework resources.</li> <li>Support organisations to implement HCTC framework.</li> </ul>	<ul style="list-style-type: none"> <li>Vulnerable children receive coordinated, high quality care through the strengthening of service responsiveness and system-wide improvements.</li> </ul>	<ul style="list-style-type: none"> <li>Number of services who have completed the initial self-assessment and 12 month review to determine progress.</li> <li>Number of referrals of vulnerable children and families to support services and/or Child Protection reports.</li> <li>Health staff have increase skills in identifying children and families at risk.</li> </ul>

Acronyms: VPHS = Victorian Population Health Survey,
